RIVER STREET, RICHMOND VIC 3121

OBJECTIVE

Motivated university student with a strong passion for software and web development (HTML and CSS) and essential programming skills (JavaScript, Python, and Java). Committed to continuous learning, with one year of coding experience, and eager to apply and further develop these skills in a tech-related job. In addition to my core programming skills, I have delved into the realm of machine learning, acquiring a basic understanding of its principles and applications. Eager to leverage this knowledge and expand my expertise in a tech-related job, I am enthusiastic about contributing to innovative projects and staying at the forefront of emerging technologies.

TECHNICAL SKILLS

Programming Languages:

- Python
- JavaScript (including Node.js)
- SQL
- C++

Web Development

- HTML 5
- CSS3
- Responsive Web

Backend Development

- Node.js
- SQL

Tools

- IDEs (Integrated Development Environments): Visual Studio Code, IntelliJ IDEA, PyCharm.
- Jupyter, Google Colab

PROJECTS

These are a few of my projects:

- Flappy Bird (BETA)
- Personal Portfolio
- Coffee Shop Webpage
- To-Do-List

- Responsive Login Form
- Pong Game
- Basic Veggie Shop
- Weather Web App
- E-commerce website
- Recipe Finder
- Advance Webpages
